7.1		7. HANDLING									
	Work & Hygiene Practices:	Avoid contact to eyes, skin, and thoroughly after handling and use area. Do not store or bring tobac the standards of good industrial h	. Do not s co produ	smoke, ea cts, gum,	at, drink, c	hew gun	n or tobacc	o, or app	ly cosme	etics within	n the working
7.2	Storage & Handling:	No unusual methods are required. Keep product contained and retain all warning and identity labels. Preferred storage is a sheltered warm area with temperature and humidity control to prevent high humidity and "going through the dew point." Static charge may occur during powder transfer. Keep away from incompatible materials listed in Section 10. Open containers slowly on a stable surface. Keep container tightly closed when not in use.									
7.3	Special Precautions:	Read and understand the manu National Standard Z-49.1, "Safe Society, P. O. Box 351040, Mian Office, Superintendent of Docume and explosion control, exposure c	ifacturer's ty in We hi, FL 331 ents, P.O	instruct Iding, Cu 35 and 0 . SDS Revision: 1.0

		9. PHYSICAL & CHEMICAL PROPERTIES – cont'd
9.11	Relative Density:	7.2 – 7.8 g/cm <sup>3</sup>
9.12	Solubility:	NA
9.13	Partition Coefficient (log Pow):	NA
.14	Autoignition Temperature:	NA
.15	Decomposition Temperature:	NA
.16	Viscosity:	NA
.17	Other Information:	NA
		10. STABILITY & REACTIVITY
0.1	Stability:	Stable under normal conditions of use (see section 7).
0.2	Hazardous Decomposition Products:	Irritating vapors and toxic gases (e.g., carbon monoxide and carbon dioxide) when burned or during
0.3	Hazardous Polymerization:	Will not occur.
0.4	Conditions to Avoid:	Use or storage near incompatible substances.
0.5	Incompatible Substances:	Strong oxidizing agents, strong acids and bases.
		11. TOXICOLOGICAL INFORMATION
1.1	Routes of Entry:	Inhalation: YES Absorption: YES Ingestion: NO
1.1	Toxicity Data:	Manganese & Manganese Oxides: High short-term (acute) exposure to manganese and its compounds may ca
		exposure (for example over a weekend), may quickly reappear upon resumption of exposure ("Monday morr syndrome"), and may dissipate during the workweek as the body adjusts to exposure. Chronic overexposure Manganese compounds may result in central nervous system (CNS) effects, with symptoms that may include behavior changes, impairment of muscle function, and sexual dysfunction. In severe cases, irreversible CNS effects may reswith a host of symptoms that mimic Parkinson's disease or muscular dystrophy. <u>Molybdenum</u> : Overexposure to oxides of molybdenum may affect the body if they are inhaled, ingested or if they com the eyes. Effects could include irritation of the eyes, nose, and throat, weight loss, and digestive disturbances. Let term effects are not known, but may be associated with muscle and joint aches, headache. <u>Silicon &amp; Silicon Oxides</u> : (Amorphous Silica) Short term overexposure may be a possible eye irritant. Repeat inhalation of amorphous silica can cause pneumoconiosis or non-disabling fibrosis of the lung. <u>Titanium Oxides</u> : Oxides of titanium are considered to have minimal toxicity, as a nuisance dust. Exposure may cat mild irritation of the respiratory system and eyes. <u>Titanium Dioxide</u> : LC <sub>50</sub> (rat, inh-4h) > 6.82 mg/L <u>Niobium</u> : Short term exposure may result in eye and skin irritation, as well as irritation to the respiratory tract. Long the exposure may result in kidney damage and moderate fibrosis of the lungs. <u>Additional Information</u> : See Section 2, "Hazard Identification," for general overview of hazards associated with use of product, and for health hazards and symptoms associated with acute and chronic exposures to welding fumes generar from this product. See Section 3 of this SDS for specific constituents of this product in order to determine applicability information provided in this section.
1.3	Acute Toxicity:	See Section 4.4
1.4	Chronic Toxicity:	See Section 4.5
1.5	Suspected Carcinogen:	Nickelis listed as IARC Group 2B (Possibly carcinogenic to humans); NTP15 Group 1 (Known human carcinogenic CA65 (cancer).CA65 (cancer).Chromium in the form of "hexavalent chromium," is considered a human carcinogen, and thus mutagen as well. While this product does not contain hexavalent chromium, it is well known that the chromium in the product is converted to various chemical forms during the welding process, including hexavalent chromium. Therefore use of this product in normal welding operations must be considered to represent a cancer hazard. Other constituents this product are not considered carcinogens or mutagens.WARNING! This product can expose you to chemicals including Hexavalent Chromium, and Nickel, which known to the State of California to cause cancer or reproductive harm. For more information, go
1.0	Denne durative T. 1 11	www.P65Warnings.ca.gov.
1.6	Reproductive Toxicity:	This product is not reported to produce reproductive system effects in humans.
	Mutagenicity:	Chromium in the form of "hexavalent chromium," is believed to produce mutagenic effects in humans.
	Embryotoxicity:	This product is not reported to produce embryotoxic effects in humans.
	Teratogenicity:	This product is not reported to produce teratogenic effects in humans.
	Reproductive Toxicity:	This product is not reported to produce reproductive system effects in humans.
1.7	Irritancy of Product:	See Section 4.2
	Biological Exposure Indices:	Consult Occupational Physician for the availability and appropriateness of biological exposure indices (e.g., blood te

12.1	Environmental Stability	12. ECOLOGICAL INFORMATION
12.1	Environmental Stability: Effects on Plants & Animals:	There is no specific data available for this product.
12.2	Effects on Plants & Animals: Effects on Aquatic Life:	There is no specific data available for this product. There is no specific data available for this product.
12.3	Ellects on Aquatic Lile:	
		13. DISPOSAL CONSIDERATIONS
13.1	Waste Disposal:	Dispose of in accordance with federal, state, provincial or local regulations.
13.2	Special Considerations:	NA
		14. TRANSPORTATION INFORMATION
The desc	basic description (ID Num criptive information may be	ber, proper shipping name, hazard class & division, packing group) is shown for each mode of transportation. Additional e required by 49 CFR, IATA/ICAO, IMDG and the CTDGR.
14.1	49 CFR (GND):	NOT REGULATED
14.2	IATA (AIR):	NOT REGULATED
14.3	IMDG (OCN):	NOT REGULATED
14.4	TDGR (Canadian GND):	NOT REGULATED
14.5	ADR/RID (EU):	NOT REGULATED
14.6	SCT (MEXICO):	NOT REGULATED
14.7	ADGR (AUS):	NOT REGULATED
		15. REGULATORY INFORMATION
15.1	SARA Reporting Requirements:	
13.1		Nickel.
15.2	SARA TPQ:	There are no specific Threshold Planning Quantities for the components of this product.
15.3	TSCA Inventory Status:	All chemical substances of this product are listed on the TSCA inventory or are otherwise exempt from inventory statu
15.4	CERCLA Reportable Quantity:	<u>Chromium</u> : 2,270 kg (5,000 lbs); <u>Nickel</u> : 45.4 kg (100 lbs)
15.5	Other Federal Requirements:	<u>Manganese</u> (and its compounds), <u>Chromium</u> (and its compounds), and <u>Nickel</u> (and its compounds) are listed a Hazardous Air Pollutants (HAPs). <u>Manganese</u> (and its compounds), <u>Chromium</u> (and its compounds), and <u>Nickel</u> (are its compounds) are listed as Toxic Pollutants under the Clean Water Act (CWA). <u>Chromium</u> , <u>Copper</u> and <u>Nickel</u> al listed as Priority Pollutants under the Clean Water Act (CWA). This product does not contain any Class 1 or Class ozone depletors.
15.6	Other Canadian Regulations:	This product has been classified according to the hazard criteria of the Controlled Products Regulations (CPR) and the SDS contains all of the information required by the CPR. The components of this product are listed on the DSL/NDSL The following chemicals are listed on the Ingredient Disclosure List: Chromium, Manganese, Nickel and Molybdenum.
15.7	State Regulatory Information:	<u>Chromium</u> is found on the following state criteria lists: Florida Toxic Substances List (FL), Massachusetts Hazardoo Substances List (MA), Michigan Critical Substances List (MI), Minnesota Hazardous Substances List (MN), New Jers Right-to-Know List (NJ), New York Hazardous Substances List (NY), Pennsylvania Right-to-Know List (PA), au Washington Permissible Exposures List (WA). <u>Nickel</u> is listed on the following state criteria lists: FL, MA, MI, MN, N PA and WA.
		No other hazardous ingredients in this product, present in a concentration of 1.0% or greater, are listed on any of t following state criteria lists: California Proposition 65 (CA65), Delaware Air Quality Management List (DE), Florida To Substances List (FL), Massachusetts Hazardous Substances List (MA), Michigan Critical Substances List (M Minnesota Hazardous Substances List (MN), New Jersey Right-to-Know List (NJ), New York Hazardous Substance List (NY), Pennsylvania Right-to-Know List (PA), Washington Permissible Exposures List (WA), Wisconsin Hazardou Substances List (WI).
15.8	Other Requirements:	WARNING! This product can expose you to chemicals including <u>Hexavalent Chromium</u> , and <u>Nickel</u> , which a known to the State of California to cause cancer or reproductive harm. For more information, go www.P65Warnings.ca.gov.

		16. OTHER INFORMATION
16.1	Other Information:	<ul> <li>DANGER! MAY CAUSE CANCER. MAY CAUSE DAMAGE TO ORGANS (LUNGS) THROUGH PROLONGED OR REPEATED EXPOSURE. CAUSES SERIOUS EYE IRRITATION. MAY CAUSE RESPIRATORY IRRITATION. Obtain, read and follow instructions before use. Do not breathe dust/fume. Wash hands and exposed skin areas with soap and warm water thoroughly after handling. Do not eat, drink or smoke when using this product. Use only outdoors or in a well-ventilated area. Wear protective gloves/protective clothing/eye protection/face protection. IF INHALED: Remove person to fresh air and keep comfortable for breathing. IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If exposed or concerned, get medical advice. Get medical help if you feel unwell. If eye irritation persists: Get medical help. Store locked up.</li> <li>NOTE: Local ventilation should be used during handling and use. Good housekeeping and personal hygiene are recommended. Some individuals may show sensitivity to exposure. Failure to observe proper practices may be hazardous to health. Use only in well-ventilated areas. Harmful by inhalation. Avoid contact with skin and eyes. Do not breathe gas, fumes, vapor or spray. Wear suitable protective clothing, gloves and eye/face protection. In case of insufficient ventilation wear suitable respiratory protective equipment. Avoid overexposure to metal fumes, powders and particulates.</li> <li>WARNING: Electric shock from welding equipment or electrodes may be fatal. The welding process uses electrical energy into a localized, concentrated heat source. The tremendously high temperatures of the arc cause the welding continuous wire and rod electrode (or filler metal, when used as such) to decompose. Electric arc working may create one or more health hazards. Hot metal spatter and heat from electric arcs, welding flames or the thermal spray process may cause burns to the hands and body or may cause fire if it comes into contact with combustible materials. UV,</li></ul>

REACTIVITY

SPECIAL PRECAUTIONS

Prepared to OSHA, ACC, ANSI, NOHSC, WHMIS, GHS & EU Standards

SDS Revision: 1.0

SDS Revision Date: 11/28/2024

### **DEFINITION OF TERMS**

CTION

A large number of abbreviations and acronyms appear on a SDS. Some of these that are commonly used include the following:

#### GENERAL INFORMATION:

CAS No.	Chemical Abstract Service Number
RTECS No.	Registry of Toxic Effects of Chemical Substances Number
EINECS No.	European Inventory of Existing Commercial Chemical Substances Number

#### EXPOSURE LIMITS IN AIR:

ACGIH	American Conference on Governmental Industrial Hygienists			
IDLH	IDLH Immediately Dangerous to Life and Health			
NOHSC	National Occupational Health and Safety Commission (Australia)			
OSHA	U.S. Occupational Safety and Health Administration			
PEL	Permissible Exposure Limit			
STEL	Short Term Exposure Limit			
TLV	Threshold Limit Value			
TWA	Time Weighted Average			

#### FIRST AID MEASURES:

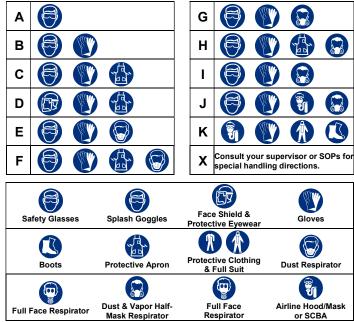

CPR Cardiopulmonary resuscitation - method in which a person whose heart has stopped receives manual chest compressions and breathing to circulate blood and provide oxygen to the body.
--

#### HAZARDOUS MATERIALS IDENTIFICATION SYSTEM: HMIS

### HEALTH, FLAMMABILITY & REACTIVITY RATINGS:

0	Minimal Hazard	HEALTH
1	Slight Hazard	FLAMMABILITY
2	Moderate Hazard	PHYSICAL HAZARDS
3	Severe Hazard	PERSONAL PROTEC
4	Extreme Hazard	

### PERSONAL PROTECTION RATINGS:

#### OTHER STANDARD ABBREVIATIONS:

Carc	Carcinogenic
Irrit	Irritant
NA	Not Available
NR	No Results
ND	Not Determined
NE	Not Established
NF	Not Found
SCBA	Self-Contained Breathing Apparatus
Sens	Sensitization
STOT RE	Specific Target Organ Toxicity – Repeat Exposure
STOT SE	Specific Target Organ Toxicity – Single Exposure

### NATIONAL FIRE PROTECTION ASSOCIATION: NFPA

FLAMMABILITY LIMITS IN AIR:				
Autoignition	Minimum temperature required to initiate combustion in air with no other source			
Temperature	of ignition			
LEL	Lower Explosive Limit - lowest percent of vapor in air, by volume, that will explode or ignite in the presence of an ignition source			
UEL	Upper Explosive Limit - highest percent of vapor in air, by volume, that will explode or ignite in the presence of an ignition source			

#### HAZARD RATINGS:

0	Minimal Hazard	FLAMMABILITY
1	Slight Hazard	
2	Moderate Hazard	
3	Severe Hazard	
4	Extreme Hazard	
ACD	Acidic	
ALK	Alkaline	
COR	Corrosive	
W	Use No Water	HEALTH
OX	Oxidizer	
TREEOII	Radioactive	

#### TOXICOLOGICAL INFORMATION:

LD <sub>50</sub>	LD <sub>50</sub> Lethal Dose (solids & liquids) which kills 50% of the exposed animals		
LC <sub>50</sub>	Lethal concentration (gases) which kills 50% of the exposed animal		
ppm	ppm Concentration expressed in parts of material per million parts		
TD <sub>io</sub>	Lowest dose to cause a symptom		
TCLo	Lowest concentration to cause a symptom		
TD <sub>Io</sub> , LD <sub>Io</sub> , & LD <sub>o</sub> or	Lowest dose (or concentration) to cause lethal or toxic effects		
TC, TC <sub>o</sub> , LC <sub>io</sub> , & LC <sub>o</sub>			
IARC	International Agency for Research on Cancer		
NTP	National Toxicology Program		
RTECS	Registry of Toxic Effects of Chemical Substances		
BCF	Bioconcentration Factor		
TLm	Median threshold limit		
log Kow or log Koc	Coefficient of Oil/Water Distribution		

#### **REGULATORY INFORMATION:**

WHMIS	Canadian Workplace Hazardous Material Information System
DOT	U.S. Department of Transportation
тс	Transport Canada
EPA	U.S. Environmental Protection Agency
DSL	Canadian Domestic Substance List
NDSL	Canadian Non-Domestic Substance List
PSL	Canadian Priority Substances List
TSCA	U.S. Toxic Substance Control Act
EU	European Union (European Union Directive 67/548/EEC)
WGK	Wassergefährdungsklassen (German Water Hazard Class)

### CLP/GHS (1272/2008/EC) PICTOGRAMS:

			$\diamondsuit$					
GHS01	GHS02	GHS03	GHS04	GHS05	GHS06	GHS07	GHS08	GHS09
